

## How do you get your information?

Neptune's AMR and AMI solutions combine powerful and reliable radio endpoints and collection devices with intuitive software that **simplifies the collection, management, and analysis of system information.**

- **Improve Cash Flow** - monthly billing cycles; unaccounted for water
- **Improved Efficiency** - reallocated personnel, vehicle costs, & liability expenses
- **Leak Detection** - faster identification from customer through distribution system
- **Accuracy** - correct reads guaranteed
- **Improved Customer Relations** - 24-hour consumption data, water usage patterns, accurate billing information
- **Conservation** - water scarcity plans; enforcing water restrictions, tiered rate structure

### AMR Walk-By Pilot \$10,000

- 25 E-Coder R900i™ 5/8" meters\*
- Handheld Data Collector
- Mobile Software

E-Coder R900i

Handheld Collector

Mobile Software

\*3/4" meters available

### AMR Drive-By Pilot \$37,500

- 100 E-Coder R900i™ 5/8" meters\*
- Laptop Data Collector
- Mobile Software
